### The Office of Administration News

During this period, the administrators and the faculty in each discipline are working on projects of budgets which have been allocated in fiscal year 2014. Our university has continued to proceeding that based on the information from the quantity of regular students, special students, graduates and demonstration school's students in the semester of 2/2014, 3/2014 and 1/2015. For other budgets, the policy division has estimated 228 million baht for the year 2014 and the budget will be cut because of the reduced number of students (the 1<sup>st</sup> year is 10% and 2<sup>nd</sup> and 3<sup>rd</sup> is 5%). However, the university will have to modify the budget again after students admitted to study in 2015.

Asst. Prof. Sanit Leungbutnark, the president of Loei Rajabhat University has informed the policy to deal with the project in this year to the executive committee in meeting on campus. He said that all news projects, it must be appropriate to budget such as the special budget should be managed to develop new students and create activities in developing students in various skills.

The project of students' expertise development to be the smart students in academy is concerned. We can run the project by having the student do the test due to their majors.

For the students' ethics development project, the student development division and art and cultural office have carried out continuously. I would like to ask students for following the traffic rules strictly.

Another topic that has to be concerned is motorcycle parking. Please park you motorcycle in the provided area. Nowadays, there are more than ten thousand students in Loei Rajabhat University, and there are seven thousand to eight thousand motorcycles a day in the university. If everybody follows the traffic rules, I think there will be no any jams in our university.

I would like to inform LRU instructors who live in the apartment that please keep the area clean, do not make a loud noise, and follow the rules strictly.

From the research of an analysis of students' tendency in Thailand was found that the number of the students will be decrease beginning from 2018. If this happened, it will have an effect on university, especially, the budget in LRU. So the teachers should attempt teaching and helping the students for developing their abilities.

Asst. Prof.Dr. *Chao Inyai*  
Vice president for administration

### Solving the summary of administrative committee meeting LRU 7th 2014
